

APPLICATION FOR PERMIT

Serial No. 8250

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office Mar 7 1927
Returned to applicant for correction Jun 15 1927
Corrected application-filed Jul 27 1927

The undersigned Charles W. Straight
Name of applicant
of Stillwater, County of Churchill,
State of Nevada, hereby make s application for
permission to appropriate the public waters of the State of Nevada, as
hereinafter stated. (If applicant is a corporation, give date and place
of incorporation.)

1. The source of the proposed appropriation is Stillwater Slough
Name of stream, lake, or other source
2. The amount of water applied for is 0.70 second-feet.
One-second-foot equals 40 miners' inches
3. The water to be used for Irrigation
Irrigation, power, mining, manufacturing, domestic, or other use
4. The water is to be diverted from its source at the following point:
This is an application to change the point of diversion
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section-corner. If on unsurveyed land, it should be so stated.
and place of use. (See supplementary sheet)

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it should
be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.
- (c) Irrigation will begin about _____ and end about _____
Month, of each year.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section-corner.
- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.
- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works _____

6. Estimated time required to construct works _____

APPLICATION TO CHANGE THE POINT OF DIVERSION, MANNER OR PLACE
OF USE.

Charles W. Straight, Stillwater, Churchill County, Nevada.
Permit Number 8037.

Re: Waters of Stillwater Slough:

Date of first receipt and filing in State Engineer's Office.

March 17, 1927.

Returned to applicant for correction.

June 15, 1927.

Corrected Application filed.

Herein. July 27, 1927

The undersigned, Charles W. Straight, of Stillwater, County of Churchill, state of Nevada, hereby makes application to change the point of diversion of waters of Stillwater Slough, Churchill County, Nevada, to wit:

1. The source of water supply proposed to be changed is Stillwater Slough.
2. The quantity of water desired to be changed is 0.70 of a second foot.
3. The water is to be used for irrigation.
4. The water is to be diverted from its source at the following point: North 61°42' West, 630 feet, from the southeast corner of Section 13, Township 19 North, Range 30 East, M.D.B.&M.
5. The existing point of diversion (manner of use) under the former appropriation is as follows: A point which bears South 49°31' West, 718.0 feet from the east quarter ($\frac{1}{4}$) corner of Section 13, Township 19 North, Range 31 East, M.D.B.&M.
6. The water, herewith desired to be changed, has been beneficially and continuously used upon the following described lands: None. This is waste water, to the best knowledge, information and belief of applicant. It is due to the incorrect description of the land in the former application in which it was placed in Range 31 East, instead of 30 East, M.D.B.&M., that has necessitated this procedure.
7. Number of acres heretofore irrigated is None.
8. Number of acres proposed to be irrigated is 70.
9. Description of land proposed to be irrigated is as follows: East one half of the southeast quarter of Section 13, Township 19 North, Range 30 East, M.D.B.&M.
10. Description of proposed works is the installation of a 2 in. centrifugal pump, either electric motor, or gas engine driven, drawing from a 3ft x 3ft sump cribbed, and sunk below the bottom of the slough sufficiently deep to insure continuous supply to pump; discharge will be thru 2 in. pipe to a reservoir covering an area of approximately three acres with a depth of 3 feet thence thru head-gates (wood) to lateral ditches.
11. Estimated cost of proposed works is about \$1000.00.
12. Estimated time to construct the work is 2 years.
13. Irrigation will begin about March 1st each year and end October 31st each year.
14. The water has been used heretofore during the months of _____ each year. None.
15. Remarks: The reason that no water has been used heretofore is due to the fact that following the discovery of the error, above mentioned, and as appears in the advertisement of applicant's application for permission to use the public waters, and having received no permit, applicant did not proceed in any construction work as required ordinarily. There are at present 31.9 acres irrigated at this time from waters rented from the Truckee Carson Irrigation District, as shown by the accompanying map.

State of Nevada,

County of Churchill.

Charles W. Straight, of the said county of Churchill, being first duly sworn, deposes and says; that he is the applicant above named, that he has read the application for point of diversion, and knows the contents thereof, and that the same is true to the best knowledge, information and belief of said applicant.

DENIAL OF STATE ENGINEER.

This is to certify that I have examined the foregoing application,
and do hereby deny the same,

on the grounds that after due notice by
Registered Mail it is evident that Applicant is no longer interested
in said application.

The amount of water to be appropriated shall be limited to the amount
which can be applied to beneficial use, and not to exceed
cubic feet per second.

Actual construction work shall begin on or before

Proof of commencement of work shall be filed before

Work must be prosecuted with reasonable diligence and be completed on or
before

Proof of completion of work shall be filed before

Application of water to beneficial use shall be made on or before

. Proof of the application of water to beneficial
use must be filed with State Engineer on or before

WITNESS MY HAND AND SEAL this 29th day
of December, 1950

State Engineer.
